LECTURES

Week 1: Written Notes

Week 10: Powerpoint Slides Handout

Week 5: Audio Recording

The WebCT site for ICLS2626 “Words and Pictures across Cultures” is an example of a “**A1 – informational**” type online presence.

The definition of A1 is “The unit of study website provides information resources only (eg, unit of study outline, readings, links to other related websites)”.

In this case, the Unit of Study is taught by several lecturers, each teaching over 3 or 4 weeks.

What does the WebCT site contain?

- **Unit of Study Outline**

The Word document has been turned into a PDF before it was put online

- **Student Resources**

A series of links to the Library, to ICT Helpdesk, etc

This folder comes by default when the site is created

- **Lectures**

Each lecturer had his or her own way of putting up lecture notes:

- Some put some written notes
- Some put the audio recording of their lecture
- Some put their PowerPoint slides as a PDF handout

We can discuss options on what you would like to put up here and in the meantime just create an empty folder entitled “Lectures” or “Lecture Notes”.
